

BUSINESS CRIME!

VICTIMS OF BUSINESS CRIME...

Have you been a victim of crime in the work place, have you been verbally or physically assaulted or traumatised by what you have had to witness?

If so, free help and support is available to you, through the Victim Care Service.

Dealing with the effects of crime can be very difficult. Business crime should not be considered a 'victimless' crime – its effects on victims and witnesses involved can be profound and long lasting, impacting on their wellbeing and mental health.
